### WE WELCOME CUSTOM PRODUCT REQUESTS

Coxreels' Customer Service and Engineering Departments work closely with our customers in identifying their special needs and application requirements that are not offered as standard catalog items. We regularly fulfill special requests from our customers from simple color changes to application-based custom designs. If you do not find the exact item you need in our catalog, let us develop a custom reel for your special needs. Coxreels' is Your Reel Source for Custom Reels!

### Dear Valued Customer:

Continuing into our 8th decade and 3rd generation of family ownership and operation, it is with great pride that we introduce our most comprehensive offering of product ever! Throughout our history we have remained aware that our products are called on to faithfully perform duties that range from the simple, reliable delivery of air or oil, to the supply of life saving energy for hydraulic rescue tools. Every single component is built with this in mind.

Our entire team takes great pride in being part of a growing U.S. manufacturer. In support of this continued growth, manufacturing continues to be upgraded to include even more automation. Our extensive use of CNC Equipment, Robotics, Automation Systems, along with New Product Development, Enhanced Customer Service, In-House Design and Engineering allow us to provide more value and support to you, our customers.

Within these pages, we offer insight into many of the processes and qualities that are incorporated into our products. We expect that through this deeper understanding of our methods and corporate philosophy, you will recognize the VALUE differentiation of our product from the alternatives in the market.

I also would like to thank all of our customers who throughout the years have supported our efforts and helped us maintain our position of leadership and innovation.

Sincerely,

Brad Cox  
President

Coxreels' 75,000 square foot manufacturing facility includes an in-house Engineering Department, Machine Shop, and Proprietary CNC Machinery including Robotic Welding and Robotic Spin Cell Operations.

### THE COXREELS ADVANTAGE

# HOW TO ORDER? — SELECT THE PROPER REEL

The size, length and type of hose to be handled are primary factors in selecting the proper reel for your job. The following points should be considered:

## 1. HOSE I.D., O.D. & LENGTH

When space permits, select a reel with greater hose capacity than you require. This allows you to rewind the hose with less care and keeps the hose well protected within the disc dimension, even if the hose is not wound in uniform coils. (See hose selection chart below)

## 2. SIZE & TYPE OF SWIVEL JOINT & SEAL FOR INLET & OUTLET

In selecting your reel please note the size of your hose versus the inlet and outlet sizes. Reducing your fitting & hose size will allow for more hose capacity. Please refer to the o-ring seal compatibility chart on page 31 for special application requirements.

## 3. RETRACTION METHOD & PROPER USE

Choose from Spring Driven, Hand Crank or Motor Driven retraction.

**SPRING DRIVEN:** Automatic rewind requiring no power source. Operator is to guide the hose or cord as it self-retracts and wraps around the drum.

**HAND CRANK:** Operator must manually crank the reel and guide the hose or cord evenly as it wraps around the drum to reach full capacity.

**MOTOR DRIVEN:** Requires a power source to operate in AC, DC, Air or Hydraulic power. On/Off switches and speed controllers are available to help control retraction speed. You must guide the hose or cord efficiently back on the reel to reach full capacity.

## 4. MOUNTING POSITION

Determine which mounting position you require. All reels are shipped in the floor-ceiling mount (FM) position with the exception of the "T," "EN," and "SD" Series, which are shipped in the wall-truck mount (WM) position. See diagram to the right for the "SP & DP" Series as well.

## 5. CHOOSE TYPE OF HOSE

Consider operating temperature, product temperature and pressure required (PSI).

Always use good quality hose rated for the service and operating pressure required. Poor quality hose tends to expand and contract under pressure surges. When this happens, hose remaining on the reel may bind and become difficult to handle. In extreme cases, poor quality hose may expand under pressure to the extent that the reel becomes distorted and inoperable.

## 6. ADDITIONAL OPTIONS

Customize your reel to meet your exact requirements. Once you select your reel type consider the different add-on features such as roller brackets, special mounting brackets, carry handles or a cart for portability. See the options available indicated on each page.

## HOSE SELECTION

The drawing below shows two reels with different shapes and dimensions but with identical hose capacity. In most cases, more than one reel will handle the size and length of hose you need, so you can specify a reel to fit your space requirements.

See Page 00 For Hose Assemblies & Component Parts

# Heavy Duty Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

**EZ-COIL™**

## SH, MP & HP SERIES

Coxreels' SH Series "Super Hub" spring driven hose reels, like the P Series, have a history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels' original "Super Hub" dual axle support system increases the stability during operation, reduces vibration and strengthens the structural integrity of the reel.

**LOW PRESSURE** Models with hose are for air or water service with a maximum temperature 150° F. Models less hose can be used for air, water or oil. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Supreme Duty Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

**EZ-COIL™**

## T SERIES

**Coxreels' T Series "Truck Mount" spring driven hose reels are the toughest hose reels in the spring driven line.** The extra large chassis is strongly supported by dual pedestal-style arms that span from the roller guide bracket down to the sturdy mounting base. Triple support points to the center shaft are complemented by Coxreels' original Super Hub support system. They're perfect for off-road applications that demand reliability in the most abusive and demanding environments.

**LOW PRESSURE** Models with hose are for air or water service with a maximum temperature 150° F. Models less hose can be used for air, water or oil. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Dual Purpose Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

**ELECTRIC**

## C SERIES

Coxreels' C Series "Combination" spring driven hose reels are a combination of two hose reels in one compact assembly. They are perfect for applications in which two sources are needed to get the job done when space is a critical factor. The single mounting base creates stability and adds to the convenience of one mounting pattern. This series is also available in air hose/electrical cord combinations.

**LOW PRESSURE** Models with hose are for air or water service with a maximum temperature 150° F. Models less hose can be used for air, water or oil. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Air/Electric Combo Reels

AVAILABLE IN:

**ELECTRIC**

**SPRING DRIVEN**

## C SERIES

**Coxreels' C Series "Combination" spring driven air hose/electric cord reels are two hose reels in one compact assembly.** They are perfect for applications that require pneumatic air and an electrical power feed. The single expanded mounting base creates stability and adds to the convenience of one mounting pattern. This series is also available in dual hose combinations.

**FOR INDOOR USE ONLY** Coxreels electric and pneumatic hose reels operate as two independent, self-retracting 50 foot trouble-free assemblies. All models rated: 115 volts, 3" conductors, 60 hz single phase.

## ALUMI-PRO™ SERIES

**Coxreels' Alumi-Pro™ Series "Aluminum Professional-Grade" spring driven hose reels have the strength of steel without the weight!** The Alumi-Pro™ series is modeled after Coxreels' popular P Series line of hose reels, but are uniquely constructed out of high quality aluminum. They're compact, lightweight and non-corrosive making them the perfect choice when polypropylene or plastic hose reels are not the preferred choice due to their limited strength and durability.

**LOW PRESSURE** Models with hose are for air or water service with a maximum temperature 150° F. Models less hose can be used for air, water or oil. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Stainless Steel Hose Reels

AVAILABLE IN: **SPRING DRIVEN**  
**HAND CRANK**

## SS SERIES

Coxreels' SS Series "Stainless Steel" hand crank and spring driven hose reels have similar features to their related series, but are constructed of high quality electro-polished stainless steel. They offer clean, non-corrosive performance in applications that require it, such as food and chemical processing, marinas, and anywhere that rust, corrosion and contamination thrive. Stainless steel fluid paths are also available at special request.

**FOR NON-CORROSIVE PERFORMANCE**

# Spring Driven Welding Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

**EZ-COIL™**

## P-W & SHW SERIES

**Coxreels' P-W and SHW spring driven "Welding" hose reels are the ideal solution for managing bulky twin line welding hose.** The P-W Series, like the P Series, is more compact in size and shares the reputation for long lasting performance. The SHW Series has a larger chassis and frame to accommodate longer lengths of welding hose and Coxreels' original Super Hub dual axle support system for increased stability during operation, less vibration and greater structural integrity.

**OXYGEN-ACETYLENE DUAL HOSE REELS** Hose supplied on reel is twin-siemese type meeting R.M.A. and C.G.A. type V.D. grade R specifications. Use of other types of hose is not recommended. **Note: Do Not Exceed Listed Hose O.D. To Obtain Max. Length.**

**MOTOR DRIVEN**

## 1125WCL & 1275W-C SERIES

Coxreels' 1125WCL Series hand crank or motorized "Welding Cable" reels are perfect for organizing and managing long lengths of welding cable. Save time and effort as you extend the life of your expensive welding cable investment. All electrical components are set inside the drum offering a special narrow width. A stacking bracket is available to create a lead/ground combination in one organized unit.

Coxreels' 1275W Series hand crank or motorized "Welding" hose reels are built to manage long lengths of bulky twin line welding hose. The direct bevel gear drive, low profile outlet riser and open drum slot design are features greatly appreciated by the regular user. Dual brass swivel inlets on each side of the reel assure full flow trouble free performance.

# Static Discharge Cable Reels

AVAILABLE IN: **ELECTRIC**

**SPRING DRIVEN**

**EZ-COIL™**

## SD SERIES

Coxreels' SD Series "Static Discharge" spring driven cable reels are built heavy duty and designed for long lasting performance. They are specifically design to be used in combustible environments where the static buildup could ignite a spark and subsequent explosion. Static discharge or grounding reels are commonly paired with fuel hose reels.

# High Capacity Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

## SP SERIES

**Coxreels' SP Series "Single Product Delivery" spring driven hose reels are built to handle large hose diameters.** Used in applications demanding large volume delivery in low and medium pressures such as fuel and water. The sturdy box-style frame has heavy duty steel cross supports to all four corners for extra strength and rigidity.

**LOW PRESSURE** Two braid hose for applications 250 to 300 psi and temperatures to 150° fahrenheit. Reel less hose 250° fahrenheit. For higher temperatures and pressures, see price sheet or consult factory. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Dual High Capacity Hose Reels

AVAILABLE IN: **SPRING DRIVEN**

## DP SERIES

**Coxreels' DP Series "Dual Product Delivery" spring driven hose reels have two swivel inlets and two outlets for dual hose applications.** Like the SP Series they are built to handle large hose diameters used in applications demanding large volume delivery in low and medium pressures. The sturdy box-style frame has heavy duty steel cross supports to all four corners for extra strength and rigidity.

**LOW PRESSURE** Two swivel joint inlets and two outlet risers to simultaneously handle equal lengths of two hoses. Hoses can be different diameters, in which case the larger hose diameter determines capacity of the reel. For applications 300 psi and temperatures to 250° Fahrenheit. **NOTE: Do not exceed listed hose O.D. to obtain maximum length.**

# Compact Hand Crank Hose Reels

AVAILABLE IN: **HAND CRANK**

## 100 & SM SERIES

**Coxreels' 100 Series "Challenger" hand crank hose reels are lightweight, compact, versatile reels that perform at working pressures up to 4,000 PSI.** Save time and effort while increasing the safety of your work environment. The sturdy "U" shaped frame and all steel construction make this one tough little reel. All listed models are supplied less hose. Stainless steel models are available.

**Coxreels' SM Series "Swivel Mount" hand crank hose reels swivel on demand in the direction your work takes you and locks in eight different positions as desired.** Like the 100 Series, the SM Series is lightweight, compact and versatile with a working pressure up to 4,000 PSI. The "U" shaped base and hose control bar together add strength and rigidity while keeping the hose from slipping off the side discs. Add the SMK-202 wall mount bracket for fixed wall mounting positions.

# Portable Hose Reels

AVAILABLE IN: **HAND CRANK**

## DM & CM SERIES

**Coxreels' DM Series "Dolly Mount" hand crank hose reels offer lightweight, compact portability for long lengths of hose.** Eliminate the task of manually coiling and uncoiling hose and easily transport it to the job site on wheels. High pressure applications are no problem with a 4,000 PSI rating. Also, a 4' inlet hose with 3/4" female fitting and male garden adapter is available with this series for use with garden hose. See options below.

**Coxreels' CM Series "Caddy Mount" hand crank hose reel is perfect for carrying the extra long lengths of hose to the job site.** It is lightweight, compact and versatile with working pressures up to 4,000 PSI. The hose control bar prevents the hose from slipping off the side discs and makes it easy to grab and go.

# Hand Crank & Motor Driven Reels

AVAILABLE IN: **HAND CRANK**  
**MOTOR DRIVEN**

## 1175 SERIES

Coxreels' 1175 Series "Competitor" hand crank and motorized hose reels, like the 1125 Series, is an industry preferred design built with a larger chassis for larger hose capacities and hose diameters. They feature a sturdy one piece all welded "A" frame base, low profile outlet riser open drum slot design for smooth even hose wraps around the drum. Multiple roller bracket options are also available to accessorize your reel.

# Large Capacity/Volume Hose Reels

AVAILABLE IN: **HAND CRANK**  
**MOTOR DRIVEN**

## 1185 & 1195 SERIES

**Coxreels' 1185 and 1195 Series hand crank and motor driven hose reels are designed to handle long lengths of large diameter hose for increased volume delivery.** Coxreels' exclusive low profile outlet riser and open drum design provide a non-crimping, flat smooth hose wrap. The sturdy all welded "A" frame base provides exceptional strength to handle the extra weight without sacrificing performance, even in demanding mobile applications.

# Large Capacity Dual Hose Reels

AVAILABLE IN: **HAND CRANK**  
**MOTOR DRIVEN**

## 1275 SERIES

**Coxreels' 1275 Series "Dual Hose" hand crank or motorized hose reels are designed for large capacity applications.** This series features dual plumbing with two swivel inlets and two low profile outlets that compliment the open drum slot that provide a non-crimping, flat smooth hose wrap. The industry preferred one piece all welded "A" frame design adds rigidity and strength while the positive gear drive rewind assures consistent trouble-free performance. Multiple roller bracket options are also available to accessorize your reel. See options below.

## TWO-YEAR LIMITED WARRANTY

Products manufactured by Coxreels are warranted for a period of two years from the date of sale to original purchaser. If within such warranty period any such equipment is proved, to Coxreels' satisfaction, to be defective, Coxreels shall be liable for the repair or, at Coxreels' option, replacement when the product is returned, freight prepaid, to Coxreels' plant or a Coxreels' service dealer. Coxreels' obligation hereunder shall be confined to such repair or replacement and shall be further conditioned upon Coxreels receiving written notice of any alleged defect within ten days after its discovery. No responsibility is assumed for improper choice of models or where products are used in excess of rated capacities and design functions, or under abnormal conditions. We make available a free engineering service to help with any product selection, application or problem.

Warranty is void if the product or any part thereof has been tampered with, altered, or repaired by other than authorized service personnel. Coxreels' responsibility ceases upon delivery to any common carrier, and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. Any products, components or accessories that are not manufactured by Coxreels and are supplied by other manufacturers are subject to their respective guarantees or warranties. Certain products will carry their own warranties. Equipment specially built to customers' specifications and requirements is not subject to cancellation nor returnable for credit under any condition. We reserve the right to modify or alter materials, dimensions, design and construction, when necessary, to improve performance.

#### STATEMENT OF HOSE APPLICATIONS

Coxreels does not manufacture any hose. All hose supplied by Coxreels is selected from reliable commercial sources and is recommended for application on the basis of data supplied by the manufacturer. Coxreels assumes no responsibility for any other application or use. Hose supplied by Coxreels carries the warranty as listed by the manufacturer (90 days).

Custom products and special orders are not returnable.

#### COXREELS' CUSTOMER SERVICE - 1-800-269-7335

Call and request a returned goods authorization number (RGA #). Warranty claims must be made by authorized Coxreels distributors. Be prepared to give the following information: product model number, serial number and purchase invoice number.

- Replacement parts ordered will be invoiced to your account.
- Once given an RGA #, you must write it on all boxes and paperwork. Coxreels will not accept your return without an RGA #.
- Upon receiving the return, if it is determined to be covered under warranty, a credit memo will be issued and mailed to you for your records.
